

Parent Tips

Module 3

Comparison of Length, Weight, Capacity, and Numbers to 10.

In module 3, kindergarten students will begin comparing lengths, weights, and capacity of containers. Toward the end of the module, students will compare actual numerals.

Comparing an item with a cube sticks

How Can You Help at Home?

- Look at/pick up items around the house and compare which is heavier/lighter.

[Weight/Balance Game](#)

- Measure a liquid and pour into a variety of containers. Discuss why it looks like more/less in each container.
- Continue to review and practice counting to 10 and beyond. Students can use the links provided if needed.

Standards in Module 3:

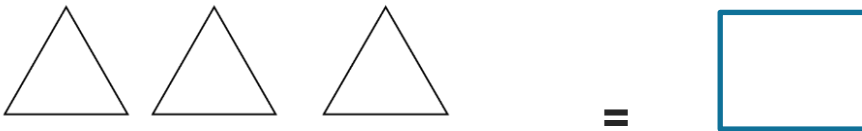

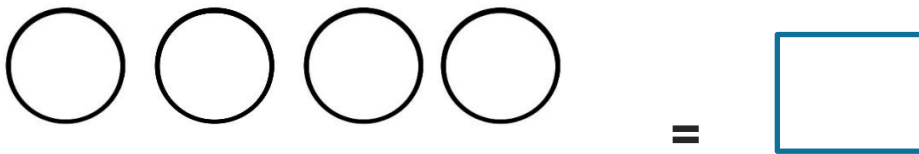

Compare numbers

- Use the language of “greater than, less than, or equal to” when comparing groups of objects
- Compare numerals within 19 (ex. 4 is less than 7)

Describe and compare measurable attributes (such as length and weight)

- Directly compare 2 objects with a measurable attribute in common (ex. one pencil is shorter than another)

Sample Question from Module 3:

_____ is less than _____

Words to Know

Comparison Words:

Enough/not enough

Heavier than/lighter than

More than/less than/the same as

Longer than/shorter than

Taller than/shorter than

Important vocabulary:

Balance scale

Endpoint

Capacity (volume)

Length

Weight

Height
